About The Home

By Frances Dell

Flower show judges rate arrangements according to certain established rules. This makes both the judging and the arranging much easier. In either case, all one has to do is study the established rules.

There are two sorts of rules. The first concerns the technique and control of material used in an arrangement. The second has to do with imagination and beauty of design.

The first is important because it would be no use to have good taste and imagination, if you could not control the plants and materials to be used.

When studying the various rules of flower arranging, there are always a few people who, in their efforts to create something dramatic or different, go in for technical facility so strongly that their results are always stylized and too studied. This is a fault that is all too common.

The first rule for good arrangement is to be sure that holders and such do not show. This does not apply to decorative holders or rocks.

When entering an arrangement in a show, there is a rule which prohibits artificial coloring unless the schedule states that it may be used. Also, avoid the use of any material on the state conservation list.

For flower shows the arrangement must not touch the background or hide walls of the niche. For home use this would mean that the arrangement should be the proper size for the space it is to decorate.

Equality is the theory that a barbarian is the equal of a gentleman.

FARMERS UNION TO PRESENT PROGRAM

Problems facing the family farmer in Virginia and the nation will occupy the attention of delegates and members attending the bi-ennial convention of the Virginia Farmers Union to be held February 16 and 17 in Richmond, Va., according to Charlie S. Rush, president of the local county Farmers Union organization. The county farm leader said that about 500 delegates and members from over the state would be on hand for the sessions, at which Senator Stuart Symington, of Missouri, an often mentioned candidate for the Democratic nomination for President of the United States, will be among the speakers. "Almost every speech and every report will point out the economic problems of the 'family-size' farmer," Mr. Rush continued.

Besides Senator Symington, the speakers will include Congressmen Watkins M. Abbitt and Pat Jennings; National Farmers Union President James G. Patton; Fred S. Royster, John B. Vance, and William V. Rawlings.

Among the delegates and members who will attend the convention from this area are Roland Smith, J. P. Alvis, L. C. Reynolds, Ed Davis, and C. S. Rush. All sessions will be held at the Jefferson Hotel, with a banquet on Wednesday night, Feb. 17, at which time Senator Symington will be the guest speaker.

Your Move

Central Falls, R. I.- Bertrand R. Duhamel, 22, of Woonsocket, had a novel alibi in District Court where he appeared for driving at 100 miles an hour. He told the court he was driving with the girl he loves when a rival for her affections pulled up in front of them and drove at 10 miles an hour.

Duhamel said he became infuriated and put on a burst of speed, just when the state troopers appeared. He was fined $10.

Betrayed!

Toronto.- "It's not right to steal," a little boy exclaimed in a loud voice to a woman in a department store. A store detective, hearing the words, took the woman, Mrs. Mary Landry, 30, into custody. After brief questioning, she admitted that she had stolen some goods. The little boy was her son, police learned.

LOOK AT THE LOWER PRICES

List prices as much as $76.05 lower on popular models with popular equipment

The '60 Chevrolet models most people buy, equipped the way most people want them, are actually priced lower than last year's models. This two-tone Bel Air V8 sedan, for example—with Turboglide, push-button radio and de luxe heater—lists for a whole $76.05 *less!* Prices are lower for all comparable V8 models throughout the line. Also for all comparable 6-cylinder models with Powerglide. Yet Chevy's loaded with more of the things that put pleasure into owning a car. (Just look at the list!) It's the greatest year yet to get into a Chevy!

Softer, more silent ride with coil springs at all four wheels and new butyl rubber-cushioned body mounts.

Big brakes for quicker, surer stops. Rivetless bonded linings mean they last longer, too.

More room to relax in. Chevy sedans offer roomier seating than any car in their class. Lower, narrower transmission tunnel means more foot room.

Only full wraparound windshield among the leading low-priced cars.

Electric windshield wipers keep sweeping even when you speed up to pass.

Vent windows crank open and closed. So much simpler than fighting those tricky little catches.

Keyless locking of all doors. Quick and easy. The same key opens door, glovebox, trunk and starts the car.

Economy Turbo-Fire V8. Or how to get up to 10% more miles per gallon of regular and still have lots of "git."

Thriftiest 6 in any full-size car. It's the '60 version of the engine that got 22.38 miles per gallon in the 1959 Mobilgas Economy Run.

Widest choice of power teams. 24 engine-transmission teams in all, with output up to 335 h.p.

A trunk that's made for long trips with up to 22.5% more actual luggage space. Sill's lower for easier loading.

Fisher Body craftsmanship. Look at the finish, the fabrics, the detail work. You'll see the difference.
